# Math Inova

Mathematics for Engineers

Introducing VTU aligned Engineering Mathematics  
for Undergraduates

by core engineers with Two decades of  
experience in teaching, research, and  
product development, to achieve math  
excellence beyond academics!!

Be the first of many to  
experience Pedagogical  
innovations in  
Engineering mathematics!!

- Graphs, animations, and images for enhanced concept visualization!!
- Elegant lectures with multiple perspectives (including PYQs)
- Engineering connect
- FREE Fastrack Learning kit for each module
- Summaries of best practices with unobvious math observations
- Model QPs with answers and many more...!!

*"Critical math modules, **common to all engineering universities** have been given a detailed treatment from the perspective of engineering applications. These modules constitute **70% of engineering math curricula across universities.**"*
